RE: CORPORATE WOODS DRIVE OVERPASS AT UNION PACIFIC
RAILROAD PROJECT
PROGRESS REPORT NO. 5
S&A PROJECT NO. 109.0335.01-05

Dear Mr. Moritz:

This is the fifth progress report for the above referenced project and covers work through January 14, 2010. Work through this period includes continuing the preliminary design and plan preparation which comprises drainage calculations, storm sewer design, roadway cross sections, left turn lane geometrics, and structural design for the overpass bridge. Work items completed during this period included adding left turn lanes at the intersection of Convenience Boulevard as per comments from meetings with the City and developing a cost estimate to compare the options of regrading the existing detention pond or constructing a retaining wall to limit the impacts to the pond.

We look forward to continuing working for the City and you on this important project. Should you have any questions on this update, please feel free to contact me. We will be in attendance at the February 1, 2010, council meeting to answer any questions regarding this invoice.

Sincerely,

SNYDER & ASSOCIATES, INC.

Mark A. Land, P.E.
Project Director
